Interesting...the sample reflects the same diversity Lamont found in the fingerprints. Each finger had a different print, and the blood sample shows every possible blood type, all working together.

Which is, of course, impossible.

Only the excessive gamma radiation is holding them together, keeping the cells from rejecting each other.

So that may be the way to--

KLK!

Okay, so you start cleaning that end, I'll take it over here.

Nuts...

If you'd done this last night like I told you, we wouldn't have to get up early. I hate getting up early.

You know what I hate most about getting up early? I hate waking up and looking at the clock and knowing the alarm's gonna go off in five minutes, so there's no point in going back to sleep, waiting for the stupid alarm to go off, and it's still freakin' dark outside--

--and all I can do is just lay there and stare at the--

--ceiling--?

You know you're not supposed to look up here until a second after I'm gone, right?

So? What're you waiting for? Say something...

I won't say anything. But I want an autograph, and a picture of you signing it.

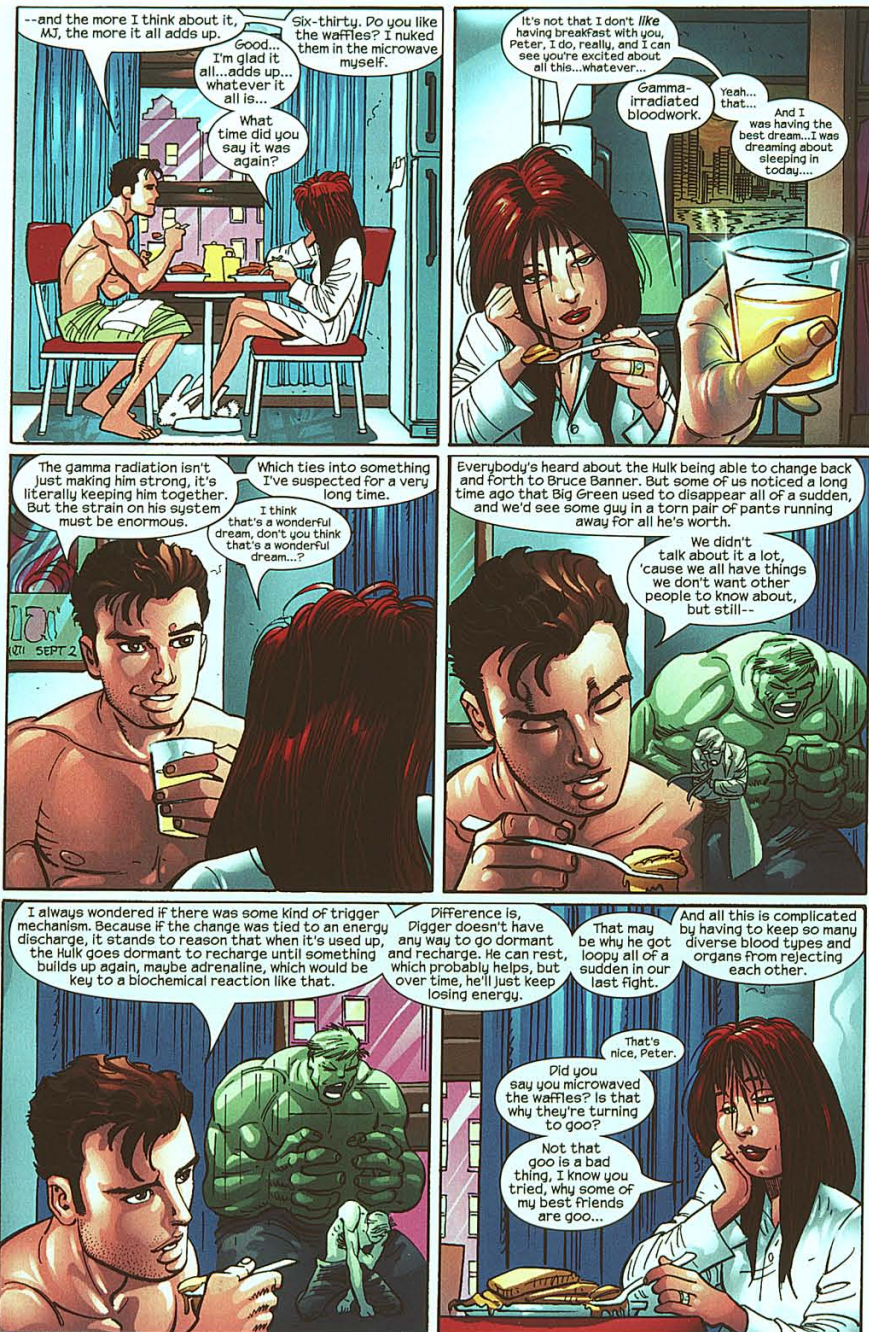

Hey, Rob, I thought you'd be done in here by now. Rob?

Hey, Rob, you know you're not supposed to use the computers, man--

Later. Right now, nothing's getting between me and eBay, nothing...

That's why it'll make it sweet when I snap her neck in front of him. Now get outta my way--

No, he's right.

Your quarrel is with me. I'm the one who gave the order for all thirteen of you to be murdered. I was the one who went to the Commission for approval. Your problem's with me. Just...leave her out of it.

Forelli... you got stupid when you got old. Whether you die first or second, you're both dying.

NOBODY'S GETTING OUT OF HERE ALIVE! NOBODY!

Get going! I'll cover you!

But--

I mean it!

Because one of us isn't leaving this room in one piece!

There are times the spider in me gets out of the way of the scientist, when I have to figure out how to beat somebody.

And times the scientist has to get out of the way of the spider. The hunter. The part of me that enjoys this.

Enjoys doing the things that only I can do...precisely because I'm the only one who can do them. I can stop him. Them. I know it.

The scientist started this investigation. Got me this far.

Now the spider has to finish it.

Well? You got anything to say about that, freak?

I tear into him--them--with everything I've got. He stopped fighting to gain time. That means he's getting tired. Can't let up for even a second now.

Sonova... leggo... get offa me... I said get off --

AAAAAGGGGGHHH!!
